packing/size/ weight	Cardboard box / Length: 37 cm, Side: 31 cm, Height: 17 cm CS/ 60 bottles		
Nutritional Information	Per 100g Calorific value/389kcal Protein/20.9g Fat/26.5g Carbohydrate/16.8g Salt equivalent/3.05g (estimated value)		

The selling point

No food additives!

Made from 100% flying fish from Matsue, Shimane Prefecture.

Flakes made mainly from flying fish meat and sesame seeds. Can be stored at room temperature before opening the package. Pre-cooked and ready to eat, it is a very healthy and nutritious product. It can be used in a variety of ways.

Example of use: Over cooked rice, as a garnish for pasta or ramen, in salads, or as a topping for soups.

In Shimane Prefecture, large numbers of flying fish come to the coast every year in early summer to spawn, and are caught in a variety of ways. As a result, Shimane Prefecture boasts one of the largest catches of flying fish in Japan, and has been designated as the "Fish of Shimane Prefecture. Locally, it is commonly made into fish paste or broth, and there are not many other ways to eat it. Tobiuo has a unique flavor that no other fish has. We developed this product in order to let more people know about the deliciousness of our beloved flying fish. We want to encourage the consumption of flying fish with food products made mainly from flying fish, and increase the value of flying fish as a fish. We hope that this will lead to profits for local fishermen and revitalize the fishing industry.
